Amana RentalHub NG LTD

Staff Code of Conduct

Super Financial Admin

Version 1.4 | 7 November 2026 | For management adoption

This unsigned form records the rules and role duties I will acknowledge after the company adopts the relevant policy. It does not appoint me, approve an account or grant new access.

Rules I agree to follow

1. Use only my approved account, function and assigned territory. A button or senior title does not grant extra authority.
2. Open customer records only for assigned work. Keep documents, contact details, identity information and case records private. Do not export them for personal use.
3. Never ask a customer for a password, OTP, authenticator code, card PIN or CVV in a conversation. Use approved verification and recovery tools.
4. Use official money and receipt processes. Never invent a payment, mark unpaid money as received, change a beneficiary for private gain or take unofficial fees.
5. Make truthful records. Do not fabricate visits, service completion, evidence, customer consent, approval reasons or receipt of a decision.
6. Declare a personal interest and step aside from conflicted decisions. Do not approve my own case, evidence, payment or collection where independent review is required.
7. Keep property business on the platform. Do not give customers protected property contacts to help them bypass it. Use private consented support forms when genuinely necessary.
8. Keep normal support complaints private. Share only the customer-approved summary through a permitted formal dispute handover; do not copy private notes or contacts to the other party.
9. Treat users and colleagues fairly. Do not threaten, harass, discriminate, retaliate, demand gifts or promise employment, verification or a case result I cannot authorise.
10. Preserve logs and evidence. Report suspected fraud, safety risks, data exposure and account compromise promptly through the assigned escalation route.
11. Use protected devices and required MFA. Do not share staff sessions. Hand over unfinished work and return information and access when reassigned or leaving.
12. Explain limits honestly. A face/fingerprint result, AI answer, payment screenshot, notification or internal case status is not proof of identity, settlement or service completion by itself.

Super Financial Admin

Role duties and acknowledgement

System role: super_financial_admin

Scope: Super / national finance oversight

My role duties

Lead platform finance monitoring and exception management.

Reconcile transaction trends, withdrawal queues, commission liabilities and fund-freeze activity.

Investigate unusual transaction patterns and coordinate with Super Admin, support or legal teams.

Use only explicitly delegated privileged approvals or payouts. Do not approve a peer Super Financial Admin, self-approve collected cash remittance or treat a transfer screenshot as settled money.

I must not: Approving another Super Financial Admin. Using delegated direct-withdrawal authority for personal benefit or outside approved purpose.

Reporting and fairness

Recommended reporting line: Super Admin; functional reporting to Executive Management/Finance leadership where appointed. The company must confirm my actual supervisor and scope. Any alleged breach follows the adopted investigation, response and appeal process; this form does not create an automatic fine or penalty.

Acknowledgement

I have received the adopted handbook and this role form, had an opportunity to ask questions and understand my approved duties. I will seek guidance when authority or a process is unclear.

12. Explain limits honestly. A face/fingerprint result, AI answer, payment screenshot, notification or internal case status is not proof of identity, settlement or service completion by itself.

Financial Admin

Role duties and acknowledgement

System role: financial_admin

Scope: Platform finance operations

My role duties

Monitor transactions and flag anomalies.

Maintain accurate finance-case notes and evidence.

Review frozen-fund cases and recommend release/escalation.

Use only permitted platform finance routes. Broad reporting visibility does not grant every Super Financial Admin delegation or authority to substitute beneficiary details.

I must not: Using user financial data for personal purposes. Making off-platform payment arrangements.

Reporting and fairness

Recommended reporting line: Super Financial Admin; escalates critical matters to Super Admin. The company must confirm my actual supervisor and scope. Any alleged breach follows the adopted investigation, response and appeal process; this form does not create an automatic fine or penalty.

Acknowledgement

I have received the adopted handbook and this role form, had an opportunity to ask questions and understand my approved duties. I will seek guidance when authority or a process is unclear.

State Admin

Role duties and acknowledgement

System role: state_admin

Scope: State operations

My role duties

Monitor LGA queues, property/user/application quality and service performance.

Review State-level appeals impartially and document decisions.

Coordinate cross-LGA operational issues and functional escalations.

Respect State boundaries and independent appeal checks. Escalate unsupported cross-State or zonal actions rather than using a broader-looking screen as permission.

I must not: Acting outside assigned State except explicit authorized escalation. Reviewing own decision on appeal.

Reporting and fairness

Recommended reporting line: Zonal Admin where appointed; otherwise Super Admin. The company must confirm my actual supervisor and scope. Any alleged breach follows the adopted investigation, response and appeal process; this form does not create an automatic fine or penalty.

Acknowledgement

I have received the adopted handbook and this role form, had an opportunity to ask questions and understand my approved duties. I will seek guidance when authority or a process is unclear.

State Financial Admin

Role duties and acknowledgement

System role: state_financial_admin

Scope: State finance

My role duties

Review State transaction trends and local finance escalations.

Monitor LGA finance workloads and exception quality.

Support reconciliation and investigate State-specific anomalies.

Reconcile permitted records, preserve transaction references and escalate payment uncertainty. Never create false receipts or act outside the role's payout and approval permissions.

I must not: Using State financial access outside assigned State without authorization. Undocumented fund interventions.

Reporting and fairness

Recommended reporting line: Zonal Financial Admin where appointed; otherwise Super Financial Admin. The company must confirm my actual supervisor and scope. Any alleged breach follows the adopted investigation, response and appeal process; this form does not create an automatic fine or penalty.

LGA Admin / Operations Admin

Role duties and acknowledgement

System role: admin; lga_admin (legacy/current LGA operations aliases)

Scope: LGA/local operations

My role duties

Process assigned local queues accurately and consistently.

Verify supporting information before approval/rejection.

Record meaningful rejection/unlisting/cancellation reasons.

Review property amendments independently where permitted. Keep approved public data unchanged until a stored request is approved; do not approve a stale proposal or your own submission.

I must not: Approving own/associate property or application without disclosure/recusal. Demanding cash or favors for approval.

Reporting and fairness

Recommended reporting line: State Admin. The company must confirm my actual supervisor and scope. Any alleged breach follows the adopted investigation, response and appeal process; this form does not create an automatic fine or penalty.

Acknowledgement

I have received the adopted handbook and this role form, had an opportunity to ask questions and understand my approved duties. I will seek guidance when authority or a process is unclear.

Super Support Admin

Role duties and acknowledgement

System role: super_support_admin

Scope: Super / national support oversight

My role duties

Monitor support backlog/SLA breaches across all States.

Set ticket quality and escalation standards.

Coordinate high-severity cross-functional cases.

Keep private complaint handling, independent cash remittance, scoped contact lookup and consented formal handovers separate. A support officer is not automatically a neutral mediator or lawyer.

I must not: Closing unresolved cases to improve metrics. Soliciting off-platform payments.

Reporting and fairness

Recommended reporting line: Super Admin. The company must confirm my actual supervisor and scope. Any alleged breach follows the adopted investigation, response and appeal process; this form does not create an automatic fine or penalty.

Acknowledgement

I have received the adopted handbook and this role form, had an opportunity to ask questions and understand my approved duties. I will seek guidance when authority or a process is unclear.

State Support Admin

Role duties and acknowledgement

System role: state_support_admin

Scope: State support

My role duties

Monitor State ticket backlog and LGA support performance.

Take ownership of escalated or repeated complaints.

Route finance/legal/transportation/fumigation/technical cases correctly.

Respect State scope and assigned-ticket rules. Recheck customer identity before account changes; a guest phone/email match is only a clue. Do not notify the opposing party about a private ticket.

I must not: Favoritism in ticket handling. Deleting/altering complaint evidence.

Reporting and fairness

Recommended reporting line: Super Support Admin; coordinates with State Admin. The company must confirm my actual supervisor and scope. Any alleged breach follows the adopted investigation, response and appeal process; this form does not create an automatic fine or penalty.

Acknowledgement

I have received the adopted handbook and this role form, had an opportunity to ask questions and understand my approved duties. I will seek guidance when authority or a process is unclear.

Super Lawyer / Super Legal Admin

Role duties and acknowledgement

System role: super_lawyer

Scope: Super / national legal oversight

My role duties

Oversee complex/cross-State legal support and dispute quality.

Set case-note/evidence-verification standards.

Review escalated disputes for consistency and legal-risk implications.

Check client/property authorisation, territory, identity and conflicts before casework. Do not verify your own evidence or claim that an internal outcome proves a court matter is finished. Protect public-case anonymity.

I must not: Accessing unauthorized properties/cases. Fabricating legal notes or evidence status.

Reporting and fairness

Recommended reporting line: Super Admin; professional legal accountability remains subject to applicable professional rules. The company must confirm my actual supervisor and scope. Any alleged breach follows the adopted investigation, response and appeal process; this form does not create an automatic fine or penalty.

Acknowledgement

I have received the adopted handbook and this role form, had an opportunity to ask questions and understand my approved duties. I will seek guidance when authority or a process is unclear.

7. Keep property business on the platform. Do not give customers protected property contacts to help them bypass it. Use private consented support forms when genuinely necessary.
8. Keep normal support complaints private. Share only the customer-approved summary through a permitted formal dispute handover; do not copy private notes or contacts to the other party.
9. Treat users and colleagues fairly. Do not threaten, harass, discriminate, retaliate, demand gifts or promise employment, verification or a case result I cannot authorise.
10. Preserve logs and evidence. Report suspected fraud, safety risks, data exposure and account compromise promptly through the assigned escalation route.
11. Use protected devices and required MFA. Do not share staff sessions. Hand over unfinished work and return information and access when reassigned or leaving.
12. Explain limits honestly. A face/fingerprint result, AI answer, payment screenshot, notification or internal case status is not proof of identity, settlement or service completion by itself.

State Lawyer / State Legal Admin

Role duties and acknowledgement

System role: state_lawyer

Scope: State legal operations

My role duties

Review State legal caseload and LGA escalations.

Maintain evidence/case-note integrity.

Ensure scope/authorization exists before opening property records.

Check client/property authorisation, territory, identity and conflicts before casework. Do not verify your own evidence or claim that an internal outcome proves a court matter is finished. Protect public-case anonymity.

I must not: Unauthorized case browsing. Conflicted representation without disclosure.

Reporting and fairness

Recommended reporting line: Zonal Lawyer where appointed; otherwise Super Lawyer. The company must confirm my actual supervisor and scope. Any alleged breach follows the adopted investigation, response and appeal process; this form does not create an automatic fine or penalty.

Acknowledgement

I have received the adopted handbook and this role form, had an opportunity to ask questions and understand my approved duties. I will seek guidance when authority or a process is unclear.

Full name _____

Staff Code of Conduct

LGA Lawyer / Lawyer

Version 1.4 | 7 November 2026 | For management adoption

This unsigned form records the rules and role duties I will acknowledge after the company adopts the relevant policy. It does not appoint me, approve an account or grant new access.

Rules I agree to follow

1. Use only my approved account, function and assigned territory. A button or senior title does not grant extra authority.
2. Open customer records only for assigned work. Keep documents, contact details, identity information and case records private. Do not export them for personal use.
3. Never ask a customer for a password, OTP, authenticator code, card PIN or CVV in a conversation. Use approved verification and recovery tools.
4. Use official money and receipt processes. Never invent a payment, mark unpaid money as received, change a beneficiary for private gain or take unofficial fees.
5. Make truthful records. Do not fabricate visits, service completion, evidence, customer consent, approval reasons or receipt of a decision.
6. Declare a personal interest and step aside from conflicted decisions. Do not approve my own case, evidence, payment or collection where independent review is required.
7. Keep property business on the platform. Do not give customers protected property contacts to help them bypass it. Use private consented support forms when genuinely necessary.
8. Keep normal support complaints private. Share only the customer-approved summary through a permitted formal dispute handover; do not copy private notes or contacts to the other party.
9. Treat users and colleagues fairly. Do not threaten, harass, discriminate, retaliate, demand gifts or promise employment, verification or a case result I cannot authorise.
10. Preserve logs and evidence. Report suspected fraud, safety risks, data exposure and account compromise promptly through the assigned escalation route.
11. Use protected devices and required MFA. Do not share staff sessions. Hand over unfinished work and return information and access when reassigned or leaving.
12. Explain limits honestly. A face/fingerprint result, AI answer, payment screenshot, notification or internal case status is not proof of identity, settlement or service completion by itself.

LGA Lawyer / Lawyer

Role duties and acknowledgement

System role: lawyer

Scope: LGA/local or assigned client/property scope

My role duties

Confirm access authorization before reviewing a case.

Maintain accurate, timely case notes.

Evaluate submitted evidence within platform workflow.

Check client/property authorisation, territory, identity and conflicts before casework. Do not verify your own evidence or claim that an internal outcome proves a court matter is finished. Protect public-case anonymity.

I must not: Viewing cases out of curiosity. Using confidential information privately.

Reporting and fairness

Recommended reporting line: State Lawyer. The company must confirm my actual supervisor and scope. Any alleged breach follows the adopted investigation, response and appeal process; this form does not create an automatic fine or penalty.

Acknowledgement

I have received the adopted handbook and this role form, had an opportunity to ask questions and understand my approved duties. I will seek guidance when authority or a process is unclear.

12. Explain limits honestly. A face/fingerprint result, AI answer, payment screenshot, notification or internal case status is not proof of identity, settlement or service completion by itself.

Zonal Financial Admin

Role duties and acknowledgement

System role: zonal_financial_admin

Scope: Assigned zone and its permitted states only

My role duties

Review the assigned zone finance overview and transactions. Reconcile anomalies and escalate through finance. The zone reporting routes do not themselves grant payout, freeze, rate-setting or national finance powers.

Review state reports, document anomalies and follow up assigned actions.

Escalate matters beyond my zone, authority or competence.

Reconcile permitted records, preserve transaction references and escalate payment uncertainty. Never create false receipts or act outside the role's payout and approval permissions.

I must not: No national authority, cross-zone access, self-review or other department powers.

Reporting and fairness

Recommended reporting line: Super Financial Admin under the adopted reporting structure. The company must confirm my actual supervisor and scope. Any alleged breach follows the adopted investigation, response and appeal process; this form does not create an automatic fine or penalty.

Acknowledgement

I have received the adopted handbook and this role form, had an opportunity to ask questions and understand my approved duties. I will seek guidance when authority or a process is unclear.

Zonal Lawyer

Version 1.4 | 7 November 2026 | For management adoption

This unsigned form records the rules and role duties I will acknowledge after the company adopts the relevant policy. It does not appoint me, approve an account or grant new access.

Rules I agree to follow

1. Use only my approved account, function and assigned territory. A button or senior title does not grant extra authority.
2. Open customer records only for assigned work. Keep documents, contact details, identity information and case records private. Do not export them for personal use.
3. Never ask a customer for a password, OTP, authenticator code, card PIN or CVV in a conversation. Use approved verification and recovery tools.
4. Use official money and receipt processes. Never invent a payment, mark unpaid money as received, change a beneficiary for private gain or take unofficial fees.
5. Make truthful records. Do not fabricate visits, service completion, evidence, customer consent, approval reasons or receipt of a decision.
6. Declare a personal interest and step aside from conflicted decisions. Do not approve my own case, evidence, payment or collection where independent review is required.
7. Keep property business on the platform. Do not give customers protected property contacts to help them bypass it. Use private consented support forms when genuinely necessary.
8. Keep normal support complaints private. Share only the customer-approved summary through a permitted formal dispute handover; do not copy private notes or contacts to the other party.
9. Treat users and colleagues fairly. Do not threaten, harass, discriminate, retaliate, demand gifts or promise employment, verification or a case result I cannot authorise.
10. Preserve logs and evidence. Report suspected fraud, safety risks, data exposure and account compromise promptly through the assigned escalation route.
11. Use protected devices and required MFA. Do not share staff sessions. Hand over unfinished work and return information and access when reassigned or leaving.
12. Explain limits honestly. A face/fingerprint result, AI answer, payment screenshot, notification or internal case status is not proof of identity, settlement or service completion by itself.

Zonal Lawyer

Role duties and acknowledgement

System role: zonal_lawyer

Scope: Assigned zone and its permitted states only

My role duties

Handle authorised case and property work within the assigned territory. Active client/property authorisation, identity-conflict checks and each action permission still apply. Zone rank does not itself create a retainer or neutral-mediator appointment.

Review state reports, document anomalies and follow up assigned actions.

Escalate matters beyond my zone, authority or competence.

Check client/property authorisation, territory, identity and conflicts before casework. Do not verify your own evidence or claim that an internal outcome proves a court matter is finished. Protect public-case anonymity.

I must not: No national authority, cross-zone access, self-review or other department powers.

Reporting and fairness

Recommended reporting line: Super Lawyer under the adopted reporting structure. The company must confirm my actual supervisor and scope. Any alleged breach follows the adopted investigation, response and appeal process; this form does not create an automatic fine or penalty.

Acknowledgement

I have received the adopted handbook and this role form, had an opportunity to ask questions and understand my approved duties. I will seek guidance when authority or a process is unclear.

Zonal Fumigation Admin

Role duties and acknowledgement

System role: zonal_fumigation_admin

Scope: Assigned zone and its permitted states only

My role duties

Coordinate permitted fumigation and cleaning operations within the assigned zone. Check provider assignments, actual service evidence and safety records. Use only actions allowed by the service routes.

Review state reports, document anomalies and follow up assigned actions.

Escalate matters beyond my zone, authority or competence.

Check actual provider, safety and service records. Never invent PPE, ventilation, inspection or completion evidence to obtain payment or improve statistics.

I must not: No national authority, cross-zone access, self-review or other department powers.

Reporting and fairness

Recommended reporting line: Super Fumigation Admin under the adopted reporting structure. The company must confirm my actual supervisor and scope. Any alleged breach follows the adopted investigation, response and appeal process; this form does not create an automatic fine or penalty.

Acknowledgement

I have received the adopted handbook and this role form, had an opportunity to ask questions and understand my approved duties. I will seek guidance when authority or a process is unclear.

Zonal Transportation Admin

Role duties and acknowledgement

System role: zonal_transportation_admin

Scope: Assigned zone and its permitted states only

My role duties

Coordinate permitted transportation operations within the assigned zone. Review bookings, assignment and dispatch records, service evidence and safety escalations without claiming national authority.

Review state reports, document anomalies and follow up assigned actions.

Escalate matters beyond my zone, authority or competence.

Confirm the booking and real dispatch, pickup, delivery and completion evidence. Escalate safety incidents promptly. Do not change providers or routes for private gain.

I must not: No national authority, cross-zone access, self-review or other department powers.

Reporting and fairness

Recommended reporting line: Super Transportation Admin under the adopted reporting structure. The company must confirm my actual supervisor and scope. Any alleged breach follows the adopted investigation, response and appeal process; this form does not create an automatic fine or penalty.

Acknowledgement

I have received the adopted handbook and this role form, had an opportunity to ask questions and understand my approved duties. I will seek guidance when authority or a process is unclear.
